DETAILED ACTION

Response to Amendment

1. This Office Action is responsive to Applicant's remarks received on October 14, 2009. Claims 40-46 remain pending.

Response to Arguments

Summary of Remarks (@ response page labeled 2): The Sumanaweera et al. reference relied upon for the rejections of claims 40 and 41 is not prior art based upon 35 U.S.C. § 103 (c)(1).

Examiner's Response: As the Applicant has affirmed that the Sumanaweera et al. reference is assigned to the same entity as the current application (Acuson Corporation), the Sumanaweera et al. reference is thus disqualified as prior art in the instant application under 35 U.S.C. § 103 (c)(1). Therefore, the rejections under 35 U.S.C. § 103 (a) have been withdrawn.

Allowable Subject Matter

2. Claims 40-46 (renumbered as 1-7) are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach generating a first extended field of view image from image data associated with a first phase of the physiological cycle and generating a second extended field of view image *associated with a second phase of the physiological cycle*, as stated in claims 40 and 41 (renumbered as 1 and 2), combined with other features and elements of the claims; extracting a time reference based a *Doppler characteristic of the image data* and identifying each frame with a respective phase of a physiological cycle *based at least in part on the time reference*, as stated in claim 42 (renumbered as 3), combined with other features and elements of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
